

How to Use Mashup Tools

Mashups allow you to include content in a course that is from an external website.

Three types of Mashups are available:

- Flickr Photo: Link to a site for viewing and sharing photographic images
- SlideShare: Link to a site for viewing and sharing PowerPoint presentations, Word documents, or Adobe PDF Portfolios
- YouTube: Link to a site for viewing and sharing online videos

1. Change Edit Mode to ON.
2. Access a content area, learning module, lesson plan, or folder.
3. On the action bar, point to **Build Content** to access the drop-down list and select **Item**.
4. On the Create Item page, type a Name for the item.
5. The Text box allows you to type instructions or a description and add the appropriate mashups.
6. Submit once you have made changes to the item

Create Item

A content item is any type of file, text, image, or link that appears to users in a Content Area, Learning Module, Lesson Plan, or content folder. [More Help](#)
