# Add a Module

1. Make sure the Edit Mode is turned **ON**

2. Go to the Content Area where you want to add the module.

3. From the Menu Bar, Select **Build Content** and choose **Learning Module.**

4. Provide a name for the Learning Module.

5. Edit any of the Learning Module options or Standard Options if necessary or applicable.

6. To show a structured view of the Learning Module, select Yes under the Table of Contents option.

7. Click **Submit.**
